WORK EXPERIENCE

SnapIT Solutions: April 2022- present Software Developer Apprentice

After completing a lengthy training class learning JavaScript, I was welcomed as an apprentice. During this time, I have expanded my skills to include several JS frameworks. I am expecting to join the company as a permanent junior software developer in August of 2022.

WWI Museum and Memorial: 2021-2022 Guest Services Associate

As a guest services associate, I assumed several different roles as assigned. These included all roles in the museum retail store and ticketing office.
